OUR STUDENT COUNCIL PRESIDENT IS REALLY AMAZING...

IT'S TRUE.
SHE IS AMAZING.
KYAA! IT'S THE STUDENT COUNCIL PRESIDENT AND VICE PRESI-DENT!

THE PRESIDENT HAS BRAINS AND BEAUTY.
YEAH, SHE'S THE WHOLE PACKAGE!
THEY SAY THE VICE-PRESIDENT IS THE DAUGHTER OF THE PRESIDENT OF THE KIRYUUIN GROUP.
BUT APPARENTLY WHEN THAT EYE ON HER FOREHEAD OPENS, IT'S LIKE SHE'S A COMPLETELY DIFFERENT PERSON!
LIKE A DUAL PERSON-ALITY?
WHAT IS A RICH KID LIKE HER DOING IN A COMMONERS' MIDDLE SCHOOL LIKE THIS?
SHE TALKS AS IF SHE WENT TO CHARM SCHOOL!

HMPF! A FIGHT? IF A COUPLE OF RUFFIANS WISH TO FIGHT AMONGST THEMSELVES, I SAY WE LEAVE THEM TO IT!
NO LOITERING
BUT I'M ALWAYS TOLD TO REPORT THESE KINDS OF THINGS.

Due to the president's superior abilities, the student council is entrusted with a wide variety of duties by the school. In exchange, they are granted privileges such as being able to use cell phones in school and being able to ignore certain school rules.

Synthesis Girl

- She has a condition where she takes on the traits of animals she's come in contact with.
- While she can make some adjustments as to how the new form will blend with her existing body, the transformation has limits based on her total mass and her skeletal structure.
- Since anything she's wearing at the time will affect the transformation, her glasses become one with her face.
- Touching another human returns her to normal.

Regeneration Boy

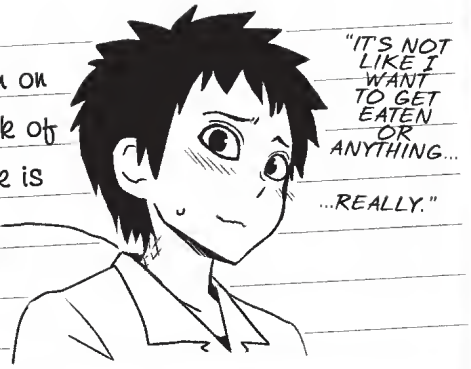

- Like a lizard with its detachable tail, he can sever and regenerate a part of his body at will.

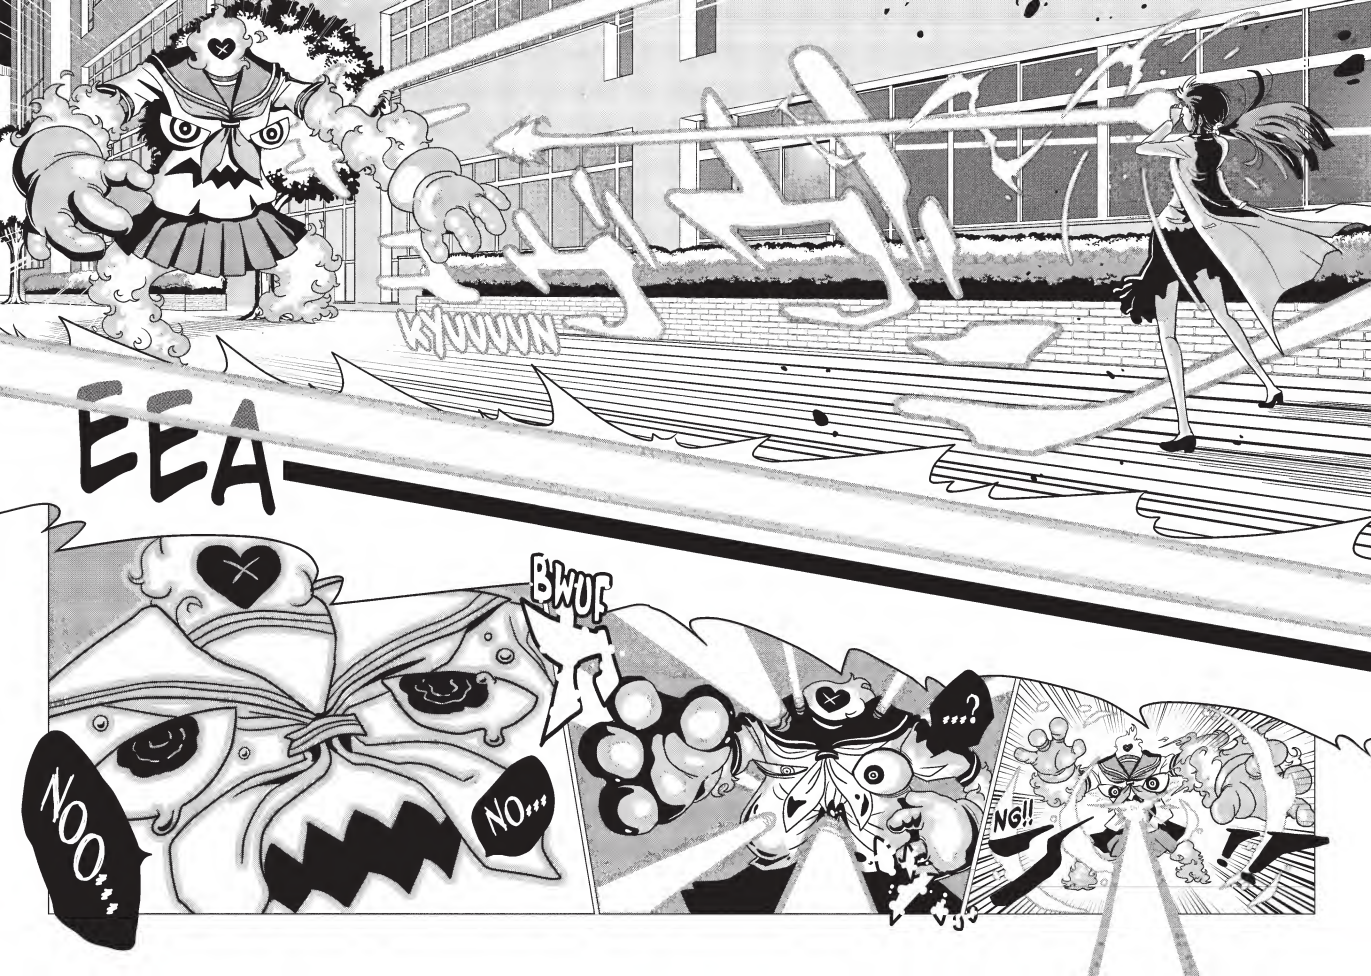

- It takes several days of shedding before his limbs fully regenerate. As opposed to a lizard, where the bone in the regenerated tail becomes cartilage, his bones grow back. His new limbs are just as good as the old ones.

- Since hair has high regenerative abilities, Futabayashi-san will never have to worry about going bald.

The skin on the back of his neck is scaly.

"EVEN NOW, I BELIEVE THAT SOMEDAY I WILL SHOOT A LASER BEAM FROM MY EYE."

Artwork by Hitomi-sensei

"There are many people who mistakenly think of me as a medical doctor. But it's more like I'm a faculty member who's in charge of looking after student health and wellness."

Sharing her vast knowledge without me even asking for it, Hitomi-sensei covers her one large eye, then crosses her legs with the poise of an actress. Manaka-sensei, the school nurse known to students as "Hitomi-sensei," is supposedly the older sister of our school's student council president, Manaka Mitsumi. While the little sister is skilled in both academics and sports and is a perfect superhuman loved by both teachers and students, the older sister is just a basic klutz.

Could these two women, one flat-chested, the other stacked, truly be related by blood? Hitomi-sensei seemed perplexed by this question at first, but finally confessed that she too often wondered if "we aren't related at all." In a way, that in itself answers the question.

Another question one might have is in regards to the inside of Hitomi-sensei's head. With an eye that large, where on earth does her brain fit? Sensei drew a picture, though it raises more questions than it answers. This unique art piece depicts the inside of her head (image at left). Who knew that our school nurse was also an artist?

"I have my own special power."

After creating that hair-raising artwork, the master painter boasts of a special ability that would make use of her large eyeball. This technique turns out to be the ability "to have eye drops administered from the second floor." Hitomi-sensei insisted that this is quite a difficult feat to pull off. We humble reporters shall bow to her wisdom in this case.

However, Hitomi-sensei's quest for special abilities would not end there. Influenced by manga or sci-fi films, she believes "a beam will come out of her eye" if she just tries hard enough.

Every day without fail, Hitomi-sensei trains so that she can shoot a beam from her eye.

"Even now, I believe that someday I WILL shoot a laser beam from my eye," Hitomi-sensei said confidently, her eye shining brightly.

Snow White Girl

- She has a physical condition that makes her body white as snow. Anything she touches turns white as well.

- Because her body temperature and energy level are both low, she often seems aloof or indifferent. This is actually far from the case.

- She has a fondness for stuffed toys, children, animals, or anything soft or cute. When she sets her sights on something, she'll push herself in pursuit of it, no matter how tired she feels.

- She's the secretary of the student council executive committee. She writes all the reports.

THERE AREN'T ACTUALLY MONSTERS IN THE STORY, BUT THE ENGLISH TRANSLATED VERSION OF HITOMI-SENSEI NO HOUKENSHITSU DID COME OUT AS NURSE HITOMI'S MONSTER INFIRMARY.
GLOBAL!

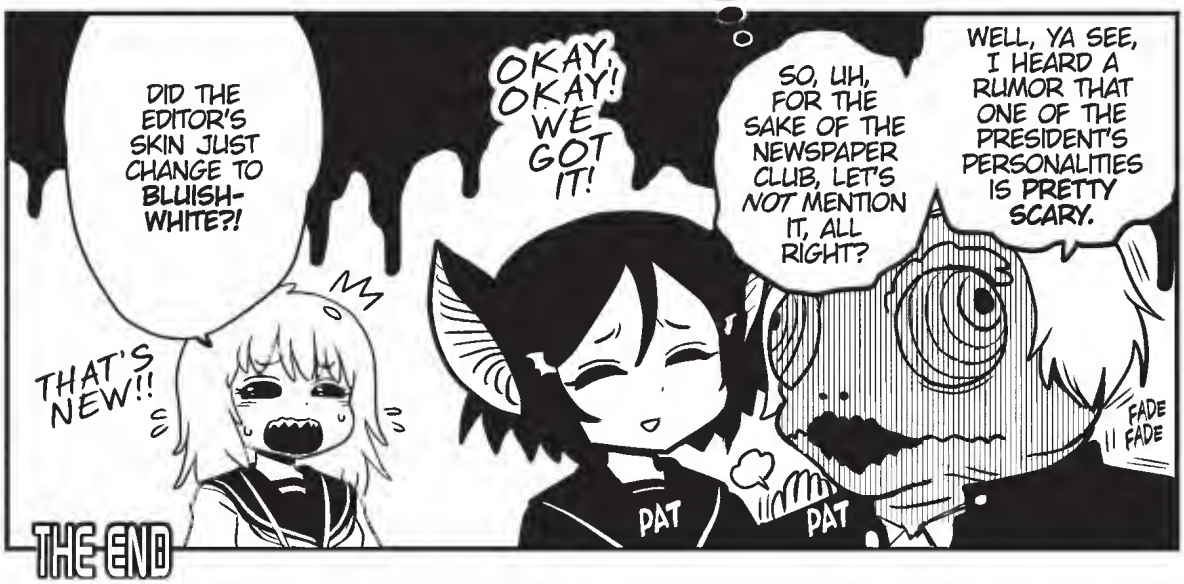

NAH. EVERYONE ALREADY KNOWS ABOUT THAT.

READING DIRECTIONS

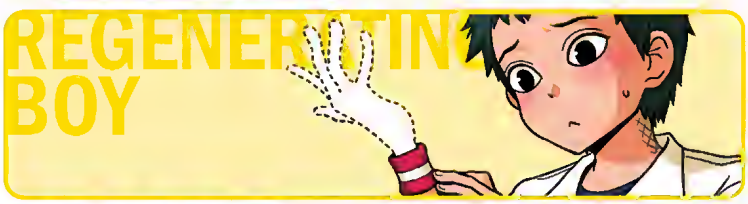

This book reads from ***right to left***, Japanese style. If this is your first time reading manga, you start reading from the top right panel on each page and take it from there. If you get lost, just follow the numbered diagram here. It may seem backwards at first, but you'll get the hang of it! Have fun!!

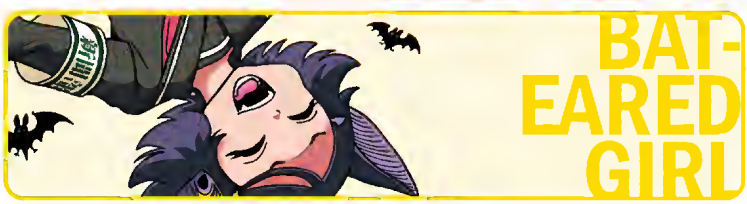

PUBLIC EYE

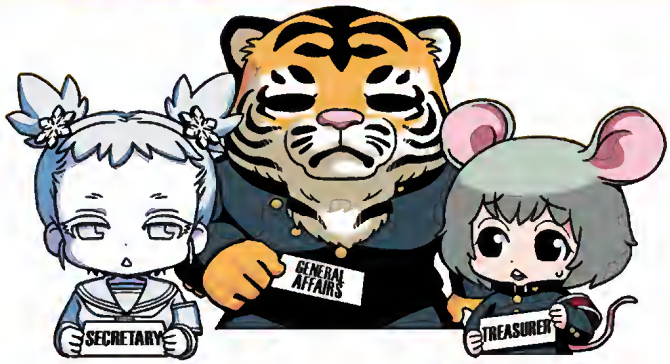

Nurse Hitomi is famous for three things: her giant eye, her huge heart, and her big curves. She's also the person students at the school turn to when they need medical attention, personal guidance and intimate advice. So when the school newspaper comes around looking to write an article about the cyclops school nurse, Hitomi is only too happy to answer their questions. However, what she doesn't realize is that the reporters are actually trying to dig up dirt on her little sister, Mitsumi, the seemingly perfect student council president with multiple personalities! Will Hitomi be able to get through the interview without embarrassing herself or her sis?

Too bad they all love a different one of Mitsumi's personalities.
